

5 QUESTIONS TO ASK

before you hire a landscape professional!

1. Are they a licensed business?

Ask if they are licensed, accredited or certified. Do they have a certified individual on staff?

2. What kind of services do they offer?

Do they offer a variety of services? The services you need now and possible in the future?

3. How are their communication skills?

It is important that you establish a good working relationship at the outset of the project. A positive approach begins with a written estimate which explains what services and materials and plants are provided, for what price, a timetable, and the terms of payment.

4. Check their work. Visit a job in progress.

Do they appear professional? You want to hire a company that does good work and reflects professionalism. Are the crew's appearance acceptable and equipment in good condition?
